ABOUT US

We are a specialist Learning Technology Services business, offering learning solutions to safety critical industries.

Home > About Us

JYD is a market-leading international learning technology solutions provider for safety critical industries. The company was founded in 1996 and operates in 110+ countries, serving 700+ customers and 500,000+ workers.

Our services include specialised competency based skills and safety content, customised learning, worker verification (including a unique and long term mandatory service for UKCS and international markets,) learning management and system integration and a suite competency solutions and proprietary data analytics - all services are delivered on the cloud either under subscription or multi-year contracts.

WORKING AT JYD

It is our mission to manage and deliver innovative learning, compliance and competence solutions that enhance skills, reduce operational and legislative risks, and maximise our customers' business performance.

We're an integral part of oil & gas and safety critical industries, operating in over 40 countries worldwide. We offer exciting career opportunities throughout our organisation, from sales, media development and instructional design to QC and customer service. We seek the best and in return provide exciting career opportunities in a fast-paced and creative environment.

We believe that highly confident and skilled people work best when they're in an effective and efficient team. And that amazing teamwork will, in turn, help us to achieve our goal to be a world-class leader in learning and skills development.

We link our own learning opportunities to organisational goals together with personal objectives. We have a framework of core and technical competencies to help map out each person's personal development. Our people meet their development needs in lots of ways, from internal and external coaching, to tutoring by colleagues, or attending relevant workshops and conferences. And of course e-learning has its part to play. Training courses our people undertake go from energy courses such as FOET and BOSSET to Masters Degrees at University.
